

Preparing your Home for a Photo Shoot

- The photo-shoot will take no more than one or two hours, depending on house size. I will be photographing both the inside and outside of your home including all of the major rooms.
- If you have special features of your home that are not obvious, please let me know about these so I include them in the shoot.
- Contain pets in the garage or outside if possible.
- Remove all vehicles from driveways and do not park directly in front of the house.
- Move garbage cans out of sight.
- Remove all garden tools including hoses and sprinklers.
- Mow and rake yard.
- Sweep driveways, sidewalks and patios
- Clear off counter tops in kitchen and bathroom areas.
- Remove photos, notes and papers from the refrigerator
- Turn on all interior lights and replace any burned out bulbs.
- Turn ceiling fans and televisions off.
- De-clutter rooms which may be excessively furnished. They do not photograph well.
- Make all beds and tidy bedrooms.
- Remove piles of newspaper and magazines.
- Tuck trash cans out of view in a closet or cupboard.
- Put toilet seats down and close all closet doors.

You can have a direct impact on how well your home will look in the photos by following these guidelines.

Thank you for your business!
